

Effective Responses in Probation and Parole Supervision: Considerations for Research, Practice, and Policy

Using practices to keep probationers and parolees crime- and drug-free and to curb their revocation rates is among the most important issues facing our community corrections supervision system. This webinar will use a panel format to highlight research around sanctions and incentives demonstrated to promote compliance with supervision conditions, legal questions regarding the administrative delivery of such responses, and implementation strategies for practice and policy. It will be informative for practitioners, judges, policy makers, and researchers.

Date: October 9, 2013

Time: 1:30-3:00 PM EST

Panelists

Anna Aylward

Assistant Secretary of Community Corrections
Washington State Department of Corrections

David Guice

Commissioner of the Division of Adult Correction and Juvenile Justice
