APPA

VIRTUAL

45TH ANNUAL TRAINING INSTITUTE
AUGUST 24-28, 2020

Expo Booth and Sponsorship Deck
What online platform is being used for APPA’s 45th Annual Training Institute?
BigMarker, the #1-rated interactive video platform.

Do we need to build new content to fit the expo hall or can we use our existing material?
You may use existing documents and materials. There will be some sizing requirements (i.e., for your logo) provided within this deck. Uploading company descriptions, bios, PDFs, links, and video are all possible.

When is the Expo Hall open?
Tuesday, August 25 10:00am - 7:00pm Eastern Standard Time
Wednesday, August 26 10:00am - 7:00pm Eastern Standard Time
Thursday, August 27 10:00am - 7:00pm Eastern Standard Time

You are not required to be present at your booth at all times; you can turn your live chat feature off at any time. APPA will provide ample opportunity for attendees to engage with your booth while attending the training institute.

Will we be able to customize our booth?
All booth sizes give you the ability to add your logo, image, and company title/tagline to the exterior. That branding carries throughout your booth, where you can also provide information about your company and representatives/presenters.

Can we conduct demos in our booth?
Yes. This feature is available, depending on what tier or add-ons your company may choose. You can set up meetings or mini presentations within your booth to demonstrate or showcase your products and services. You can advertise within your booth that you will be presenting at a set date/time and those who are interested can join at that time. There are various breaks in between sessions so you will have several opportunities.

How does the live chat feature work?
This is a feature that can be turned on and off at any time during the training institute. It is one section of your booth and when you have it turned on, you should have someone available to answer questions from attendees. When it is turned off, attendees can leave a message for you to respond at your convenience. Chatlogs and Q&A sessions will be available to download until September 4.

Will I have access to any engagement data as it relates to my booth?
Yes. Engagement data will be captured during the training institute, and that information will be shared with you.
Will there be incentives for attendees to visit your booth?
Broadcast announcements will be made throughout the training institute, and various gamification options will be available to encourage attendees to visit the expo hall.

This is what a full “floorplan” will look like on the expo hall landing page.
