

November 16, 2023

Dear Community Corrections/Supervision Leaders:

When asked by APPA to serve on the planning group for this important event, we immediately said yes. The planning and thought going into this event, which is designed specific for leaders like us, is significant. We are confident you will leave the executive summit armed with knowledge, strategies, solutions, ideas, and examples to enhance the work you are already spearheading in your jurisdiction. During the summit, we will also be able to share insight and experience with other community corrections/supervision leaders. Because only agency heads are eligible to attend, we will absolutely learn alongside our peers. During the summit, our most pressing issues will be discussed including the anticipated impact of artificial intelligence on our work; concrete examples of what is working to reduce revocations for “technical” violations; and so many more topics aimed at improving community corrections/supervision.

Please register soon as slots are limited to 150. This site provides information about the tentative agenda with the finalized, full agenda for the event available in the coming weeks. Let’s walk together into 2024 with impactful information and data to get through some of the ongoing challenges we face. The summit will certainly elevate the need to embrace actionable change to effect positive results and increase success stories across the country.

Please come for the summit and stay for the training institute’s amazing offerings.

We look forward to seeing you in the Emerald City!

Sincerely,

2024 Executive Summit Planning Group
