

## Instructions for printing PSN cards

Card stock paper works best for these cards. Unless you have the full version of Adobe Acrobat (not just the Reader), you will not be able to save the filled-in file, however, you will be able to save the file in its original form to be filled-in later.

### Printing instructions:

- 1) Open PSN card front and select manual feed on your printer. Print file.
- 2) Open PSN card back. Fill-in contact information (you can copy and paste lines by selecting typed text, copying it, then going to next line and pasting in text).
- 3) Turn over the first page printed and feed back through your printer using manual feed.
- 4) Crop lines are visible to aid in cutting cards from sheets.
